Sir:

Noting the Office Action of August 23, 2006 wherein restriction has been required, Applicant hereby elects with traverse Group I, claims 1-3, drawn to a method of altering the regulation of gene expression) for prosecution in the above-identified application.

It is respectfully submitted that the claimed methods are related to one another in that each of these methods is directed to gene regulation effected by FSH. That FSH differentially effects genes involved in different developmental processes is a part of Applicants' invention. The Examiner has arbitrarily dissected out the different developmental processes effected by FSH, and in particular, caused by FSH gene regulation.
